NEW CARS DISCUSSED

Brightwood Line May Run
Into Center of City.

RAILWAY COMMISSION MEETS

Discussion of Complaints Forms the
Main Feature of Yesterday's Con-
ference—Thirty-Five Pay-as-you-
enter Trains Ready for Use—Ques-
tion of All-night Service.

Discussion of complaints formed one of the main features of yesterday's meeting of the District railway commission. One of the complainants took exception to expectorating motormen; another to discourteous conductors; a third to noisy cars; another to the side seat pay-as-you-enter cars on the Anacostia line, and still another to the flat wheel car nuisance on New Jersey avenue. All of these complaints were considered and reported to the various companies with request to investigate and find a remedy for them.

The commission considered the matter of all-night service on the Columbia line, and is seeking additional information relative to the necessity of this service. The question of the transfer arrangements between the First street cars, the City and Suburban cars, and the Anacostia cars was considered. It is probable legislation will be suggested which will remedy the conditions complained of by several citizens' associations and individuals.

Secretary Eddy, of the commission, reported that the Georgetown and Tenallytown Railway Company has equipped all of its cars with the Westinghouse semi-automatic air brake in addition to the hand brake, thereby complying with an order of the Interstate Commerce Commission of February 9.

New Barn Nearly Ready.

Mr. Eddy also informed the commission that pay-as-you-enter cars will be placed in operation on the Brightwood line some time during the present month, and that the new car barn in Brightwood avenue will be ready for occupancy by June 13.

He said it was presumed the cars would be run through into the heart of the city, and that thirty-five of the cars have been received, equipped, and are ready for service, many of them being already in service on the Eleventh street and Columbia lines.

The shops of the Washington Railway and Electric Company, according to Mr. Eddy, are working overtime and Sundays in order to handle the extra work incident to the alteration of their cars to comply with the regulations requiring fifteen-inch clearance in front of wheel-guards, changing the type of brake hangers in order to reduce the noise caused by existing hangers, and equipping the new cars.

The company has also decided to adopt as a standard the latest type of wheel-guard trip, the new pay-as-you-enter cars being equipped with them, which is a great improvement over the trip now in use on the old cars.

Watch for a city—Randle Highlands.

NO TRACE OF MORRIS GIRL.

Greene County Sheriff Searches Many
Brookland Houses.

Virginia Morris, fifteen years old, who has been missing from her home in Cedarhurst, Md., for two weeks, was not found in Brookland, D. C., yesterday by Sheriff R. A. Malone, of Greene County.

Sheriff Malone and two assistants searched the suburb from early morning until late at night, when they appeared at police headquarters in the Municipal Building and announced they had learned nothing of the whereabouts of the girl. A man is charged with abduction in connection with the case, but no trace of him has been found.

It is known that the girl was in Brookland on Thursday last, when she mailed a letter to her parents. She declared that no one is responsible for her leaving home.

The postmistress at Brookland was yesterday shown a photograph of the girl and identified it as a picture of the girl who mailed a letter on Thursday. Nearly every house in Brookland was visited by Sheriff Malone or one of his assistants, but no one was found who could tell anything of the missing girl.

Sheriff Malone has announced his intention of remaining in Washington until he has found Miss Morris or is satisfied she is not in this city.

NEGRO PASTOR ARRESTED.

Alleged that Graduate of Howard
University Forged \$10 Check.

Rev. William W. Barton, graduate of Howard University, and former pastor of Galbraith A. M. Church, was arrested at his home in this city last night for alleged forgery committed in South Carolina more than ten years ago. The amount of money alleged to have been obtained on the worthless paper is \$10.

Barton, who lives at 80 L street northwest, has for some time been employed by a furniture house in Washington. When President Taft was inaugurated Barton entertained a negro named Adam Johnson, who lives in Lexington County, S. C., where Barton was a school teacher about ten years ago. Johnson, it is said, knew an indictment had been issued for Barton, and on his return to Lexington the negro is said to have informed the authorities of Barton's whereabouts.

C. E. Corley, of Lexington, arrived in Washington yesterday with extradition papers for the negro minister. His arrest followed. He is held at the Sixth precinct station. Barton denies the charge, and declares he will be able to prove his innocence when his case comes to trial.

\$1.00—Sunday Excursions—\$1.00

Via Southern Railway to stations Ashburn to Bluemont, Va., effective June 13, and continuing every Sunday until further notice. Leave Washington 9:55 (limited) and 9:15 a. m. (local); return same day.

Wants \$5,000 Damages for Fall.

Laetitia Maria Robbins brought suit in the District Supreme Court yesterday against the District of Columbia and Warren F. Basim for \$5,000 damages. The complainant says on February 25 last she tripped over a cord which had been stretched across the sidewalk in front of the Municipal Building by Basim, who was erecting a reviewing stand for the inaugural parade. She says there were no signs to warn pedestrians of the obstruction. She was thrown violently to the sidewalk, she declares, and sustained serious internal injuries. The complainant is represented by Attorneys Walter C. and Allan O. Clephane.

EXPERT TESTIFIES AT TRIAL

Dr. Carvalho Explains Oden B.
Gray's Handwriting.

Specialist May Show Altered Writing
on Alleged Forged Checks

Dr. David N. Carvalho, a New York handwriting expert, was called to the stand yesterday afternoon by the government in the trial of Oden B. Gray, former bookkeeper in the Washington Loan and Trust Company, who stands indicted on a charge of abstracting money from the accounts of depositors of the trust company and depositing two checks, one for \$3,750 and the other for \$2,250, at other banks, under a forged assumed name.

Photographic copies of Gray's admitted handwriting and of deposit slips said to have been made out by him were shown to the jury and to Dr. Carvalho. The expert's testimony was to show the writing was all done by the same person.

Dr. Carvalho gave a lengthy explanation of the method by which writing in an altered hand is compared with the natural writing of a suspect. He pointed out a number of peculiarities in the admitted handwriting of Gray. He will be placed on the stand at the opening of today's session for the purpose of showing that these peculiarities are also to be found on the deposit slips entered at the National Capital Bank and the United States Trust Company.

Following a decision Tuesday by Justice Gould that the testimony was admissible, United States Attorney Baker placed witnesses on the stand in the morning to show that Gray was short in his accounts with a local coal company, of which he was agent, and that he drew money from his account with the United States Trust Company to satisfy demands for settlement by the officers of the coal company.

It was testified that on August 11 last a check for \$1,700 was drawn against the deposit with the United States Trust Company, made with the alleged forged check for \$3,750, and that on the same day Gray paid the coal company \$1,000. It was also shown that a check for \$500 was drawn August 27 against the account with the National Capital Bank, and that on the same day Gray's wife placed \$500 in a local bank and a note for \$125 was paid.

May Select Ocoquan, Va.

By a recommendation of the Engineer Commissioner, it is believed Ocoquan, Va., has been determined upon as the site of the new District workhouse. Both the civil Commissioners are in favor of this location.

Prepared for Largest Crowd.

The committee in charge of the letter carriers' excursion to Chesapeake Beach, to-day has announced that 15,000 tickets already have been sold. It is planned to entertain the largest crowd in the history of the resort.

Husband Granted Divorce.

Roy C. Hoover was yesterday granted an absolute divorce from Minnie Hoover on grounds of infidelity. The decree is signed by Justice Barnard, of the District Supreme Court.

OFFICERS OFF ON RIDE.

War College Students Start for
Gettysburg.

Fifty young officers, under command of Maj. Eben Swift, one of the war college directors, started yesterday morning on a ride to Gettysburg, where a study of the battlefields will be made.

The students are accompanied by Troop C. Fifteenth Cavalry, and a baggage and supply train. The men will be gone about a month, and will inspect the battlefields at Gettysburg, Adietam, and South Mountain, with a view to learning the mistakes made by the commanders in the famous struggles of long ago.
